## MARIN'S - 2021 Cabernet Sauvignon

Marin's vineyard is located in the San Antonio Valley AVA of Southern Monterey County. It's planted on a slope averaging 7% with a soil type identified as the Nacimiento Soil Series. The first representative soil layer is comprised of dark brown, calcareous silty clay loam followed by calcareous shale and rocks, more and more rocks, then a layer of weathered sandstone. They observe sustainable practices in the vineyard and try to honor the ground where vines are planted. This includes maintaining and supporting the biodiversity surrounding the vineyard. They try to be conscious farmers with minimal intervention.

The 2021 Cabernet Sauvignon displays characteristics of black cherry and licorice with supple tannins on the finish. Only 6 barrels of this wine were produced. Aged for 18 months with 15% new french oak.

100% Cabernet Sauvignon

14.5% Alcohol

Cellar Through 2029

## WRATH - 2022 Falanghina

Wrath's Estate San Saba Vineyard is set in a sheltered nook just below the Santa Lucia Highlands AVA. The estate consists of 72 acres of which 67.75 are planted to Chardonnay, Pinot Noir, Sauvignon Blanc, Syrah and Falanghina. This is a cool site with little rainfall and one of the longest growing seasons in the world. This ancient grape produces a wine that is fragrant, refreshing and clean.

Wrath owner, Michael Thomas, is an archaeologist with excavations in Italy. This wine combines his work in Italy with his California winery. The 2022 Wrath Falanghina comes from the two rows of this ancient grape planted in their estate vineyard. It is fermented in stainless steel tanks until dry and then rested in tank for several months to allow flavors to knit together. A fragrant bouquet of orange blossom, jasmine and lemon leads to subtle flavors of honeydew melon and lychee with a hint of sea salt spray.

100% Falanghina

12.9% Alcohol

## WRATH - 2021 EX Syrah (Club Red)

This wine is 46% clone 174, 20% Noir and 34% 877. Only 3 acres of syrah are planted in their estate vineyard. Vine yields are closely managed and average slightly less than 4 tons to the acre. Grapes are hand picked and hand sorted. Clones are kept in separate lots during fermentation and barrel aging. 20% of the lots were fermented using whole clusters. Once fermented to dryness, lots are aged in an assortment of French oak barrels (20% new) from various tonnelleries (for added complexity). Wines were barrel aged for about 12 months before bottling. The bottled wine rested for another 12 months before release.

Full-flavored and savory, this wine has dark berries, black pepper, and dried herbs all wrapped with velvet tannins.

This wine shows the savory side of their estate-grown, cool-climate syrah clusters. Black peppercorn, rosemary, cola and blueberry aromas show on the nose, while the palate has more of the same along with cracked pepper, ripe olallieberry and dried meaty flavors. It is a slightly younger, less oaky version of its bigger brother, San Saba Vineyard Syrah.

100% Syrah

14.5% Alcohol

## MARIN'S - 2022 Reserve Viognier (Club Blanc)

Marin Wolgamott split the fermentation in two lots - barrel fermentation and stainless. The barrel fermentation is a slightly warmer fermentation so that the yeast produces more floral aromatics. The wine in barrel also aged on the lees for 6 months, building mouthfeel and creates a more silky structure. The stainless fermentation is low and slow, keeping it at colder temperatures to maintain the delicate fresh stone fruit aromatics and bright acidity. Blended together it's 70% barrel fermentation and 30% stainless fermentation, making it a perfectly balanced Viognier.

The 2022 Reserve Viognier was picked the first week of September from their estate vineyard in Lockwood. This wine was barrel fermented in neutral barrels and aged on lees for 5 months. It's vibrant and aromatic with hints of nectarine and white peach.

100% Viognier

14.0% Alcohol

Cellar Through 2026
